

Hydrogeology: Bardiya, Banke Districts

LEGEND

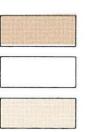

General

- National boundary
- Development Region boundary
- District boundary
- District town
- Terai / Siwalik boundary
- East-West Highway/Other metalled road
- Other major road
- River

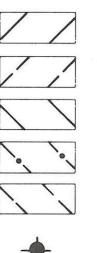

Land Use:

- Non-cultivated (forest, grazing, built up etc)
- Wild life reserve
- Active alluvial plain

Lithological Classification:

- | | |
|-------------------------|----------|
| Shallow aquifer: | Good |
| | Marginal |
| Deep aquifer: | Good |
| | Fair |
| | Marginal |
| Deep aquifer data point | |

Watertable Information:

- Flowing artesian zone
- Deep aquifer watertable > 10m
- Depth to shallow watertable contours: May 1993 (metres below ground level)
